

## **Bachelor's programs**

- Bachelor of Construction Engineering
- Bachelor of Electrical Engineering
- Bachelor of Software Engineering
- Bachelor of Mechanical Engineering
- Bachelor of Operations and Logistics Engineering
- Bachelor of Automated Manufacturing Engineering
- Bachelor of Information Technology Engineering

## **Master's programs**

- Master in Aerospace Engineering
- Master in Automated Manufacturing Engineering
- Master in Electrical Engineering
- Master in Construction Engineering
- Master in Renewable Energies and Energy Efficiency
- Master in International Projects and Global Engineering
- Master in Environmental Engineering
- Master in Engineering in Occupational Health and Safety
- Master in Engineering Healthcare Technology
- Master in Information Technology Engineering
- Master in Mechanical Engineering
- Master in Software Engineering
- Master in Urban Infrastructures Engineering
- Master in Innovation Engineering
- Master in Telecommunications Networks Engineering
- Master in Engineering with a Concentration in Design and Management of Canadian Engineering Projects
- Master in Engineering Project Management
